intern
During my two-month internship in frontend web development, I crafted several templates and implemented modifications to live projects. Notably, I worked on the customization of the Brenin.co website, gaining valuable insights into effective project management and execution. This experience honed my skills in frontend development, including HTML, CSS, and JavaScript, while also fostering a deeper understanding of web design principles. Through this internship, I learned how to effectively manage tasks and collaborate within a team, contributing to the successful completion of projects

📁 PROJECTS

BRENIN.CO ⤢
The website brenin.co was not responsive initially, but we made it responsive by using HTML, CSS, Bootstrap, and JavaScript. Additionally, we added some functionality and features to the website and fixed some issues that were occurring on the site.
